

Just Ask Campaign 2017

LCA's 2017 **Just Ask Campaign** was a success because of you! You made a difference for every student this year with your monetary gift of which 100% went to the Academy.

As we close this school year and prepare for our 2018 Just Ask Campaign in the Fall, we are excited to share these photos so that you can see what you have done.

The Just Ask Campaign 2017 allowed every student at the Academy to take **Mandarin Chinese**. Like all classes at LCA, Mandarin was extremely interactive with the written word, spoken word, crafts, games and activities. Mrs. Wu was a blessing to us all!

In an active and multisensory academic environment, time spent on the floor is a must! The Just Ask campaign blessed both LCA's **library and first and second grade classroom with new rugs** that make learning even more fun and comfortable and create borders for specific activities!

Technology upgrades are always part of the Just Ask campaign. This year, that included a new server, wifi service at triple speeds of what the Academy previously had, a new high-tech color copier and a new computer cart!

Thanks to the Just Ask Campaign, students in third through eighth grades were given the opportunity to be part of the **Academy's new choir elective**, led by premier vocalist Brenda Widger.

The choir sang at numerous school events this year including the annual Christmas concert as well as a highlight performance singing the National Anthem to open up an Erie Bayhawks game!

LCA's **Just Ask Campaign** is critical in providing enrichment activities and electives, technology upgrades and academic needs that are necessary each school year.

We hope that you will prayerfully consider participating again in our **2018 campaign this fall!** You are absolutely investing in THIS generation of God's leaders. To see student testimony and more information about the Just Ask Campaign, please visit our website:
