

OUR PHILOSOPHY OF EDUCATION

Partnering with parents, Leadership Christian Academy provides a program of academic excellence that embodies a Biblical worldview in order to equip the whole child to live a servant lifestyle as a godly leader and citizen who will impact the world with the message of Jesus Christ.

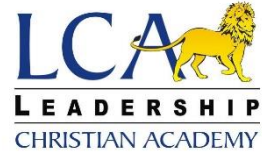

Our most important investment in the future is found in our children. The highest possible achievement for any child is to understand and follow God's plan and purpose for his or her life. To realize this goal, their hearts must be born again through the power of the Holy Spirit and their minds renewed and bathed continually in the Word of God.

Parent Partnership. The Word of God directs parents to educate and equip their children to live godly lives. The purpose of the Academy is to partner with parents and support them in this process. Therefore, the school will address each of these intertwined components to develop the total child spiritually, intellectually, socially, emotionally, and physically.

Biblical Worldview. The Word of God is celebrated as the foundation for all learning. Every fact and subject studied is recognized as flowing from the Word of God. All truth is God's truth, from the hand of God and intended for man's use. The students will discover meaning and build understanding of truths that already exist.

Leadership Development. The Academy provides a learning community that teaches godly leadership skills and characteristics that educate and equip students to fulfill God's call on their lives. The goal is to develop this generation to look beyond themselves and become leaders used for His glory; to impact their school, church, community, and the world.

Mark 10:43-44

A Discipleship Learning Community. In a discipleship learning community, high academic, spiritual, and technological studies are included to challenge students to achieve their best as life-long learners and disciples of Jesus Christ. Learning will be a lifetime goal where students are growing and changing to become more like Jesus Christ.

The Teaching Staff Leads the Way. The teacher is the living curriculum, serving the students as an example of a maturing, ministering believer who is making a difference in their world by living the truth. Trained, Christian teachers through whom the Spirit of God leads, act as guides, discussion leaders, and organizers of interactive group experiences.
