

Kate Allen graduated from Malone College with a Bachelor of Science in Education. She also holds a Master's Degree in Education with a focus on literacy. She has worked to create and develop an integrative language arts and social studies curriculum with a sequential writing program at the Academy.

Kate enjoys spending time with her husband and two children. During the warmer months, she and her family like to go tent camping and experience God's majesty in nature. She is a lover of books and can most often be found with a book in her hand.

She joined the LCA staff in 2007 after leaving the public education system. "I made a personal decision to leave teaching in the public schools to follow my calling in Christian education."

Both of her children attended LCA and one has now transitioned into high school. She states that, "My family has all been greatly blessed by the academy. I love partnering with families to help grow their children into academic-focused students with a heart for God."
