

# Just Ask Campaign 2021

# Annual Report

5900 Sterrettania Rd  
Fairview, PA 16415

# You helped us build our wall!

## Campaign 2021

Just Ask 2021 was ALL about accommodating growth at the Academy! Your Just Ask financial seeds have been sown into good growing ground dedicated to educating & equipping this generation of God's leaders!

The Academy had hit its record number of 100 students last Summer as we readied for the 2021-22 school year. This growth required LCA to begin construction, build new rooms and outfit those rooms. This could not have been done without YOU!

Our LCA families Just Asked and you stepped up to support this incredible project with 100% of your donation going directly to the Academy! Our hearts are full of thankfulness and so are the Academy's classrooms!

We have uploaded a video that takes you from wall construction all the way to the finished product filled with students! Check it out on our website:

### Your Just Ask 2021 donations allowed us to:

- Fund the wall construction that created THREE new classrooms including transom windows and doors.
- Outfit the new second grade classroom with desks, a charging dock, TV, bulletin board, coat cubbies, etc.

## Donations for Just Ask 2022 will fund:

- **Outfitting a new Kindergarten classroom top to bottom** including all furniture, equipment, academic toys, literature area and more! This corner classroom is behind the wall that Just Ask 2021 built and is full of windows and natural light creating a perfect learning environment.
- **Equipping next year's brand-new 3<sup>rd</sup> Grade** classroom with desks, technology, cubbies, shelving and more! We are thrilled to be prepared for the up-and-coming larger classes.
- **Upgrading our Lower Level as music instruction and music electives** have been moved to this creative area within our 30,000 square foot Academy. This includes durable storage for musical instruments, a dividing wall and new furniture.
- **Constructing a new sign at the entrance** of the school right along Sterrettania Road that will now include **Leadership Christian Academy** on the sign!
- **Adding new levels of security** including six to eight additional cameras and the DVR to help operate and record from those cameras.

# Just Ask Campaign 2022

# Here we grow again!

Just Ask 2022 will again accommodate the Academy growing! After last year's record enrollment, we return **this Fall with nearly 20 percent growth!**

While many parents are now seeking Christian education for their children, families find that LCA not only teaches from a Biblical worldview, but stands out because of the emphasis on leadership training, civility, character virtues, interpersonal skills, public speaking, entrepreneurship and pride in America & its rich history.

This growth has led to more expansion at LCA for this school year! We have separated the Pre-K & Kindergarten classes in order to enroll more students, but at the same time keep class sizes small. We are also preparing what will be our new 3<sup>rd</sup> grade classroom next year. Plus creating our new Kindergarten classroom means a move to the Lower Level for the music program. This year's Just Ask Campaign will help with every move, upgrade, furnishing & piece of equipment!

The Just Ask Campaign 2022 will also help us enhance the Academy's security again. And additionally, this year's campaign will provide a much-needed roadside sign upgrade that will now proudly display **Leadership Christian Academy!**

Please visit our Just Ask site for more details & to give!

## **We hope that you will prayerfully consider participating again in our 2022 Just Ask campaign!**

To see the video of the work you accomplished in 2021 and to learn more about this year's campaign or to donate, please visit:

# Academy Update

- Expanded the LCA campus with three new classrooms because of the wall that Just Ask 2021 built!
- Grew the Academy nearly 20% for the 2022-2023 school year as the demand for private Christian education continues to grow.
- Separated the Pre-K & Kindergarten classes allowing the Academy to accept more students just entering primary school while continuing to maintain small class sizes.
- Welcomed a new Pre-K teacher!
- Enhanced the music program with an instrument elective in addition to chorus.
- Expanded our sports teams to include both golf and boys' basketball in addition to cross country.
- Entered the final months of the dual accreditation process with our official ACSI accreditation team visiting in October!
- Averaged two to three grade levels above current grade on Terra Nova scores across the Academy (*excluding students with accommodations*).
- Increased the LCA endowment to \$74,600 by the end of last school year. *We currently have a matching gift of \$10,000 for any donations given directly to the endowment (separate from Just Ask).*
- Continued positioning the Academy to receive zero government dollars.
